

Board Academy

Unique triad for supervisory and advisory board members

Foundation:

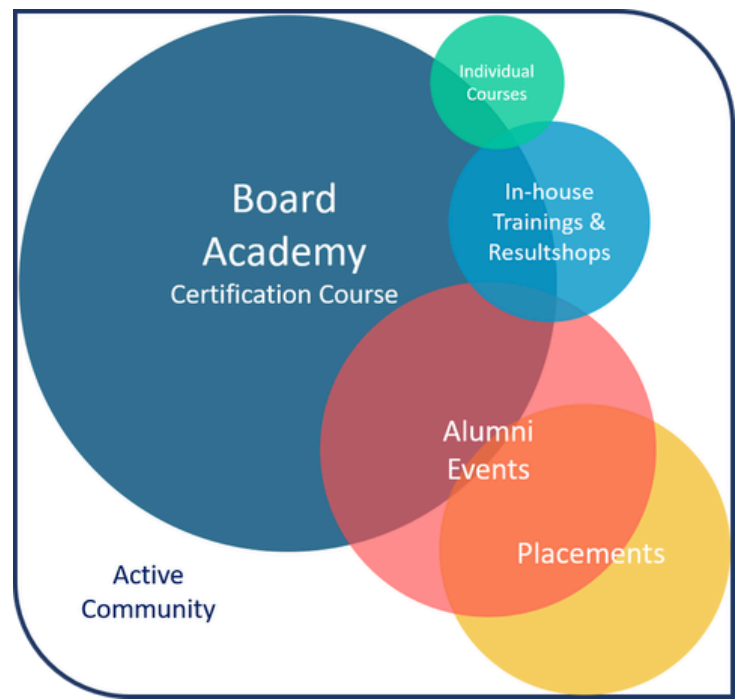

2010

Mission:

To continuously professionalize supervisory and advisory board work

Vision:

Composing supervisory and advisory boards with a wide range of perspectives

Certification

We offer aspiring and active supervisory and advisory board members tailored training and professional qualification for effective board work.

Our certification course comprises six 2-day modules followed by an exam and certification.

Community

With over 650 certified members and more than 500 managed mandates, we are the most established active community in Germany. Our Board Lounges create space for effective networking and offer insights into current trends and developments in board work.

Placements

Applying the knowledge you have acquired: We fill board vacancies from our community of qualified supervisory and advisory board members. Any company interested in filling supervisory and advisory board positions can get in touch with us.
